

# Settle CE Primary School

## Physical Education Policy

---

### 1. Aims and Objectives

1.1 Physical education develops the children's knowledge, skills and understanding, so that they can perform with increasing competence and confidence in a range of physical activities. These include dance, games, gymnastics, swimming and water safety, athletics and outdoor adventure activities. Physical education promotes an understanding in children of their bodies in action. It involves thinking, selecting and applying skills and promotes positive attitudes towards a healthy lifestyle. Thus we enable them to make informed choices about physical activity throughout their lives.

1.2 The aims of PE are:

- to enable children to develop and explore physical skills with increasing control and co-ordination;
- to encourage children to work and play with others in a range of group situations;
- to develop the way children perform skills and apply rules and conventions for different activities;
- to increase children's ability to use what they have learnt to improve the quality and control of their performance;
- to teach children to recognise and describe how their bodies feel during exercise;
- to develop the children's enjoyment of physical activity through creativity and imagination;
- to develop an understanding in children of how to succeed in a range of physical activities and how to evaluate their own success.

### 2. Teaching and Learning Style

2.1 We use a variety of teaching and learning styles in PE lessons. Our principal aim is to develop the children's knowledge, skills and understanding and we do this through a mixture of whole-class teaching and individual/group activities. Teachers draw attention to good examples of individual performance as models for the other children and we encourage the children to evaluate their own work as well as the work of other children. Within lessons we give the children the opportunity both to collaborate and to compete with each other, and they have the opportunity to use a wide range of resources. In Key Stage One and Two we offer 'Sport Afternoon Sessions' and these are planned so as to specifically target PE

activities to popular sports – these sessions are often delivered by specialists in their sporting areas and coaching expertise is often organised to supplement and raise standards in coaching.

2.2 In all classes there are children of differing physical ability. Whilst recognising this fact, we provide suitable learning opportunities for all children by matching the challenge of the task to the ability of the child. We achieve this through a range of strategies:

- setting common tasks that are open-ended and can have a variety of results, e.g. timed events, such as an 80m sprint;
- setting tasks of increasing difficulty, where not all children complete all tasks, e.g. the high jump;
- grouping children by ability and setting different tasks for each group, e.g. different games;
- providing a range of challenge through the provision of different resources, e.g. different gymnastics equipment.

### **3. PE Curriculum Planning**

3.1 PE is a foundation subject in the National Curriculum. Our school uses the national scheme of work as the basis for its curriculum planning in PE but we heavily supplement it with up to date coaching methods and current thinking and often buy in specialist coaches. In effect we have adapted the national scheme to the local circumstances of the school and we provide a range of opportunities that encourage sport to be played for fun as well as promote competitive events and inter school competition. In Early Years/ Key Stage 1, we teach dance, games, swimming and gymnastics and basic invasion/team games. In Key Stage 2 we teach PE by covering a range of sporting activities which may include: compulsory dance, gymnastics, swimming and water safety, athletics, Orienteering, Tag Rugby, Contact Rugby, Netball, Rounders, Football, Tennis, Badminton, Judo, Cross Country Running, Cricket and Hockey.

3.2 The curriculum planning in PE is carried out in three phases (long-term, medium-term and short-term). The long-term plan maps out the PE activities covered in each term during the key stage..

3.3 Our medium-term plans, which we have adopted from the national scheme, give details of each unit of work for each term. However, in Key Stage Two much of our planning for sports such as swimming, football, rugby and netball are skill based and follow national guidelines as expected for Level 1+ coaches. These plans define what we teach and ensure an appropriate balance and distribution of work across each term.

3.4 Class teachers/coaches are expected to complete a short term plan for each PE lesson. These list the specific learning objectives for each lesson and give details of how the lessons are to be taught. The class teacher keeps these individual plans, and the class teacher and subject leader often discuss them on an informal basis.

3.5 We plan the PE activities so that they build upon the prior learning of the children. While there are opportunities for children of all abilities to develop their skills, knowledge and

understanding in each activity area, there is planned progression built into the scheme of work, so that the children are increasingly challenged as they move up through the school.

#### **4. The Foundation Stage**

- 4.1 We encourage the physical development of our children in the Early Years Foundation Stage as an integral part of their work and we relate the physical development of the children to the objectives set out in the Early Learning Goals, which underpin the curriculum planning for children aged three to five years of age. We encourage the children to develop confidence and control of the way they move, and the way they handle tools and equipment. We give all children the opportunity to undertake activities that offer appropriate physical challenge, both indoors and outdoors, using a wide range of resources to support specific skills.

#### **5. Contribution of PE to Teaching in Other Curriculum Areas**

- 5.1 English  
PE contributes to the teaching of English in our school by encouraging children to describe what they have done and to discuss how they might improve their performance.
- 5.2 Information and communication technology (ICT)  
We use ICT to support PE teaching when appropriate. In dance and gymnastics children make video recordings of their performance (e.g. using our ipads), and use them to develop their movements and actions. Older children compare each other's performance from recordings and use these to improve the quality of their work.
- 5.3 Personal, social and health education (PSHE) and citizenship  
PE contributes to the teaching of personal, social and health education and citizenship. Children learn about the benefits of exercise and healthy eating, and how to make informed choices about these things.
- 5.4 Spiritual, moral, social and cultural development  
The teaching of PE offers opportunities to support the social development of our children through the way we expect them to work with each other in lessons. Groupings allow children to work together and give them the chance to discuss their ideas and performance. Their work in general enables them to develop a respect for other children's levels of ability, and encourages them to co-operate across a range of activities and experiences. Children learn to respect and work with each other, and develop a better understanding of themselves and of each other. Sport is viewed as an excellent means of developing character and promoting leadership skills and fostering the importance of a team ethos.

#### **6. Teaching PE to children with Special Educational Needs and Ensuring Equal Opportunities**

- 6.1 At our school we teach PE to all children, whatever their ability and aim to be inclusive and where possible competitive. PE forms part of the school curriculum policy to provide a broad and balanced education to all children. Through our PE teaching we provide learning opportunities that enable all pupils to make progress. We do this by setting suitable learning challenges and responding to each child's different needs. Assessment against the National Curriculum allows us to consider each child's attainment and progress against expected levels.

- 6.2 When progress falls significantly outside the expected range, the child may have special educational needs. Our assessment process looks at a range of factors – classroom organisation, teaching materials, teaching style, differentiation – so that we can take some additional or different action to enable the child to learn more effectively. This ensures that our teaching is matched to the child’s needs. During our sport afternoons we may mix year groups, and may have three or four activities for two classes to partake in, groupings are small (up to about 16) and may be streamlined according to ability.
- 6.3 Intervention through School Action and School Action Plus will lead to the creation of an Individual Education Plan (IEP) for children with special educational needs. The IEP may include, as appropriate, specific targets relating to PE.
- 6.4 We enable pupils to have access to the full range of activities involved in learning PE. Where children are to participate in activities outside our school, for example, a sports event at another school, we carry out a risk assessment prior to the activity, to ensure that the activity is safe and appropriate for all pupils.

## **7. Assessment and Recording**

- 7.1 Teachers assess children’s work in PE by making assessments as they observe them working during lessons. They record the progress made by children against the learning objectives for their lessons. At the end of a unit of work, teachers make a judgement as to whether the child has met, exceeded or is working towards the expectations of each individual unit. They record the information in their assessment files and use the information to plan the future work of each child. These records also enable the teacher to make an annual assessment of progress for each child, as part of the child’s annual report to parents. The teacher passes this information on to the next teacher at the end of each year.
- 7.2 The PE subject leader keeps photographic and video evidence of children’s work (in a portfolio). This demonstrates what the expected level of achievement is in each area of activity in PE in each year of the school.

## **8. Resources**

- 8.1 There is a wide range of resources to support the teaching of PE across the school. We keep most of our small equipment in the PE store, and this is accessible to children only under adult supervision. The hall contains a range of large apparatus, and we expect the children to help set up and put away this equipment as part of their work. By so doing, the children learn to handle equipment safely. The children use the school playground and playing field for games and athletics activities and the local swimming pool for swimming lessons.

## **9. Health and Safety**

- 9.1 The general teaching requirement for health and safety applies in this subject. We encourage the children to consider their own safety and the safety of others at all times. We expect them to change for PE into the agreed clothing for each activity area. The governing body expects the teachers to set a good example by wearing appropriate clothing when teaching PE – the staff have been provided Settle Primary School kit as appropriate to set the correct image and to promote pride and a level of professionalism to this important area of the Curriculum. The policy of the governing body is that no jewellery is to be worn for any physical activity with the exception of stud earrings which must be covered during physical

activity. Long hair needs to be tied. Risk Assessments are required for off site visits and competitive fixtures.

## **10. Monitoring and Review**

10.1 The monitoring of the standards of children's work and of the quality of teaching in PE is the responsibility of the PE subject leader, who is currently the headteacher. From September 2015 new staff have been appointed at the school to assist and drive the curriculum including a Secondary School trained PE specialist who supports both ourselves and the local secondary school with shared projects and inter school competitive events. The work of the subject leader involves supporting colleagues in the teaching of PE, being informed about current developments in the subject, and providing a strategic lead and direction for the subject in the school. The PE subject leader produces an action plan each year and provides annual summary to governors for use of Sport Premium money..

## **11. Extra-Curricular Activities**

11.1 The school provides a range of PE-related activities including netball, football, rugby and dance for children at the end of the school day. These encourage children to further develop their skills in a range of the activity areas. The school sends details of the current club activities to parents at the beginning of each term. The school also organises and plays regular fixtures against other local schools and participates in area knockout competitions. This introduces a competitive element to team games and allows the children to put into practice the skills that they have developed in their lessons. These opportunities foster a sense of team spirit and co-operation amongst our children.
